THEY GET THEIR REWARD.

Sacramento is having a run of official corruption. This time the actions of the Fire Commissioners, and the Ex-Fire Commissioner is attracting the attention of the Board of Trustees of that City, and they have been called before that body to explain certain transactions that savor of official rottenness. In these modern days it is not as hard to steal from local governments, as it is to hide the swag. The career of William M. Tweed and his associates, in New York, their exit from office, the country, capture, return and fate is familiar to the public. Tweed was not only a subject of the courts, and prisoners, but was made available for cartoon in all illustrated papers, especially in *Harpers' Weekly*, in a way that would make stealing, directly and indirectly, to those who saw them odious. Since these hoodlums, and dishonest representatives of several of the city governments of this country, have flourished, well, apparently for a time, but justice finally overtook them, and now they are branded as felons, some in prisons, others as it were, are men without a country, haunted by their villainy in foreign lands.

The New York World by its persistence, brought Sharp and his tools to a halt, and the courts sent several of them to Sing Sing. Philadelphia ferreted out her stealing gangs, and made them answer to the law. Cincinnati branded many of her servants as thieves. Chicago gathered in the hoodlums. San Francisco is busy watching those who prey upon her treasury, and is learning the "jury fixers" regardless of their wealth, a lesson. Sacramento is opening her eyes as to the source of some of her servants' revenues. Of those who have speculated from government, national, state, and local, few have failed to receive the reward of condemnation. They may have run well for a time but the seal of infamy finally brands them.

Protege of the President Seriously Injured.

WASHINGTON, October 5.—Two years ago Howard Lee, then a boy of ten years, was earning a precarious livelihood for his widowed mother and himself by selling newspapers. One day he called at the White House, took his station in the President's reception room, along with a score of office-seekers, and awaited his turn. When the President approached him the little fellow told President Cleveland his story. He said he must have employment to save his mother and himself from the almshouse, and that he could do whatever any boy of ten years could do. The President promised to find him a place, and a few days later he interested Secretary Lamm in the boy, and that gentleman set him at work as a messenger in the Pension Office. He has remained there ever since, becoming universally popular by reason of his bright, manly ways. He has been a frequent visitor at the White House also, where he always received a cordial welcome from President and Mrs. Cleveland. On Saturday last an elevator in which he was riding fell with great violence. He was carried home insensible. The boy's spine is seriously injured and he will probably not live through the day.

The brakeman on the Texas Pacific Railroad who on Friday successfully defended a train against three highwaymen, says the Record-Union, has demonstrated what one brave man with arms and authority on his side is worth. Three ruffians made an attempt to rob a passenger train; the brakeman was armed with a repeating rifle and began to fire upon the robbers the instant they advanced upon the train. They took to their heels, leaving perforated masks and hats behind as testimonies to the marksmanship of the rifleman. That train was saved, and probably many another would have been in the past had those in charge exhibited just a grain of courage. The average highwayman thinks as much of his life as the honest man, and the muzzle of a rifle opens as wide to him as to any other man. Over in Nevada three years ago a stage driver demonstrated, as did the brakeman, that a courageous front and prompt action will win in these cases. So soon as the road agents stopped his coach he began to fire upon them, and they not only did not return his fire, but fled, and, fleeing, one of them fell mortally wounded.

R. Porter Ashe received a dispatch from Kelly, his horse-trainer, announcing the death in the East of Binetti, one of Mr. Ashe's best racers. Death was from lung fever. Two weeks ago \$5,000 was refused for the animal. Binetti is the third racer the stable has lost this year, Vera and Kingfisher having preceded.

The Tuscarora Times-Review is reliably informed that charges of undue punishment, coupled with threats, have been filed with the Board of School Trustees against Principal Bowen, the truth of which will be inquired into at a meeting of the Board. Verbal complaints have frequently been made, to which the Trustees have paid no attention, but the present being reduced to writing the Trustees deem it but just and proper to investigate them. The instrument of punishment on this occasion, is said to have been a map of blackboard pointer.

Wyoming Territory.

WASHINGTON, Oct. 4.—The Governor of Wyoming Territory in his annual report to the Secretary of the Interior, states that contrary to the prevalent belief the Territory is adapted for farming purposes as well as for stock raising. The Governor estimates the population at 285,000. Owing to the fact that railroad lands are assessed this year for the first time, the taxable value exceeds last year by over \$1,000,000. For ten months ending June 30th, 303,000 acres of public lands were taken up. The Governor notes the decadence of the cattle business as compared with former years and says that hard winters and the scarcity of food is bringing about the result of confining cattle more to one locality where they can be sheltered and fed during winter. The Governor recommends the erection of three new land offices to be known as the Buffalo, Sundance and Lander districts.

A Sacramento Embezzler.

SACRAMENTO, Oct. 4th.—J. C. Van Kirk, for many years a trusted employee of the San Joaquin & Sacramento Navigation Company, has been found to be an embezzler. He was paid \$200 a month and was implicitly trusted. A week ago to-day he assigned his home-stead to Captain Thomas Decker, of the Navigation Company. His shortage is not known yet, but is variously estimated at from \$10,000 to \$50,000. His embezzling has been going on for a long time. Van Kirk has a wife and four children.

THE MORMONS.

Annual Report of the Utah Commission.

WASHINGTON, October 3.—G. L. Godfrey, A. B. Williams and Arthur T. Thomas, constituting the majority of the Utah Commission, have filed with the Secretary of the Interior the annual report of the Commission on the affairs of the Territory. A memorandum at the close of the document states that Commissioners Carlton and McClelland, dissenting from many views expressed therein, do not sign the report. The population of the Territory is estimated at 200,000, a gain of nearly 60,000 since 1880. The valuation of the property assessed in the various counties of the Territory is given as \$35,665,802. The prosperity of the past seven years, says the report, has been equal to that of any former period in the history of the Territory. On April 1st of the present year the total Mormon population of the Territories of Utah, Idaho, Arizona, Wyoming and New Mexico and the States of Nevada and Colorado was 162,333, the titling for 1880 being \$540,000. The strength of the non-Mormon element is estimated at 55,000. This element now owns of the assessed property of the Territory nearly one-third, exclusive of railroad property. The different religious denominations have now in Utah sixty churches. These churches have established and control eighty-seven schools, with an aggregate of 6,688 pupils and 230 teachers.

In conclusion, the Commission submits that in its opinion the results which have followed from the passage of the Edmunds Act have been very beneficial to the Territory. It has provided a fair, honest and orderly system of elections, and it is universally conceded by Mormons and non-Mormons that there has been no charge nor even rumor of fraud in connection with the registration of voters and the conduct of elections since the Commission first commenced its work.

WHAT ARE THEY DOING?

The Carson papers complain of their own friends. The Tribune has this:

The few Carson people who seemed to take an interest in the District Fair proceedings may well congratulate themselves on what they have so far accomplished, whilst the majority may hide their heads in shame and cry piteously. It is an extraordinary thing that the people of Carson should desire to keep up the reputation of the slowest, most envious of each other, that ever were known on the Pacific Coast, but so it is, and so it will continue until the young, go-ahead men shall alone remain, and the fossils laid away, where "neither moth nor rust doth corrupt." It is a painful admission for those who have lived in the county for many years, and worse than all to the Tribune, whose columns have for years been devoted to the advocacy of the best interests of the whole people, but it is so and unfortunately cannot be contradicted. There are a few live men among us, but whatever they may do to benefit the whole community, is by the envious ones set down to personal interests and aggrandizement. There are business men still living in Carson who have fattened off the general public, who never were known to donate a dollar to picnics, races or any other amusement which would draw visitors to the town without a growl, and until such shall be gathered to their father, the same state of affairs shall continue.

Yesterday those at the race track from abroad expressed wonder at the attendance of Carson people, and many inquired if the acts of our people was intended as a dampener to the whole affair. Let not a repetition of yesterday's attendance occur again, but give some evidence that Carson is not in a deep consumption.

The Directors of the District Fair organization have proven themselves live gentlemen and to them is due whatever of success shall ultimately attend it, and this from the live President to the stirring Secretary.

The Appeal takes them to task in the following fashion:

There is not that real live interest taken in the District Fair that ought to be manifested here. The gentlemen who have been out selling season tickets report that the little town of Empire, where the mills have been several months closed down, is purchasing season tickets more liberally than Carson. It was very discouraging to the Committee to hear business men say "what's the use of it?" and grudgingly take tickets, as if the purchase was a favor to the Committee. These men should bear in mind that the Agricultural Association are all working like beavers, for what? Themselves? No! for the future business prosperity of Carson City. The success of this Fair and an exposition of the natural products of the soil is the way booms are started which help to build up a country and make it prosperous.

Every business man who puts up his money on the proposition is paying the way to a fat bank account in the future. A few live, energetic persons are working night and day for the Fair, and a lot of old Silitarians are holding back. After this Fair is over, the Appeal proposes to separate the sheep from the goats.

There is a story that Colonel William R. Morrison, of the Interstate Commerce Commission, will shortly tender his resignation, and that he will be succeeded by another Illinoisian, John H. Oberly, of the Civil Service Commission.

In Dayton, Ohio, George Zeigler drank twenty-two glasses of whisky on a wager, walked 200 yards towards home, sat down, and was found soon afterward waiting for the coroner.

T. B. Riekey's son Charles had the misfortune to seriously hurt his elbow last August, and as it does not improve he will go to San Francisco for treatment by Dr. Lane.
The Boca Brewing Company are doing a rushing business, running day and night, and are employing about sixty men. They are constantly making improvements and contemplate making large additions to the buildings.
Thomas Nast, the caricaturist of Harper's Weekly, is stopping at the Palace Hotel, San Francisco. Nast has been connected with Harper's Weekly for many years, and his reputation as a cartoonist stands second to none in the United States.
The Southern Pacific Company are about to run a fast passenger train on the Southern route. This will probably lead to one on this route. We understand that the company are about to bring out some fast passenger locomotives from the East.
J. C. Smith, who is in San Francisco having his eyes treated, has been informed that he will never again be able to do the hard work around a ranch that he has been accustomed to for many years. The least exertion will cause him constant trouble with his eyes.
The most puzzled man in Boca is Rodda McLellan at the hotel. He doesn't know how to take care of his boarders. He is feeding from 100 to 150 men daily and every night every bed is occupied and more are called for. Transients have to sleep in the sink. An addition will be built next year.

OUR CLIMATE.
What a California Paper Has to Say About It.

The California Export Journal gives our Nevada climate and soil the annexed good lift: It is only recently that the population of the Eastern States have come to the conclusion that the climate on the Pacific Coast is more favorable to health and physical comfort than their own, and they are right. The climate of California and of Nevada is preferable to the Southern States or even Italy.
To see the fruits and vegetables unloaded daily on Davis and Washington streets will convince the most sceptical that it is an unusual climate that will produce such unsurpassed fruits and vegetables. To notice the animals shipped from the State of Nevada will testify to a condition of growth and vigor unsurpassed, we may say, in any part of the world.
Everybody knows about land in California; but little is known about lands in Nevada.
Nevada possesses advantages in some respects which are superior to California lands. Nevada has many lakes, and many mountain streams which are evidently adapted for irrigating the sagebrush land lying underneath, and it only requires a small outlay of coin, and some organized system of irrigation to make her sagebrush deserts teem with life and population.
We are informed that the celebrated actress, Madam Langtry, bought some land near Carson, and no wonder. The air is refreshing, the climate tends to vigor and great endurance.
In no place are there so many centaureans as among the native Indians of that State, or the old Spanish settlers of California.
The advantages of the climate in those two States are dryness of the atmosphere, the coolness of the night and the mildness of the temperature.
Moisture combined with the heat causes fever. Over half of the children, who die East during the months of June, July and August, called the heated term, might be saved by sending them to San Francisco, California, or Carson City, Nevada, where the air is bracing and invigorating at a time when our Eastern friends are prostrated with heat.
California is commencing to be appreciated; we predict a near future when Nevada will be appreciated too, and when her valleys will be traversed by a population looking for permanent homes.
COAL vs. WOOD.—The Truckee Republican says the price of coal has advanced largely throughout the coast and promises to remain at the advanced figures for some time to come and may never be lower than it is now. It will be remembered that about a year ago the railroad company reduced the consumption of wood on the Sacramento division, substituting coal, claiming that it was cheaper. Since the advance in the price of the latter the company find that it is much dearer than wood and are contemplating going back to old time fuel. We are inclined to guess that but little coal will be burned after this year and it is suggested that the supply of wood will be drawn from Boca. The recent sale of the Boca Mill Co.'s interests to Hopkins and others suggests that the railroad company may be concerned therein. If so the vast tracts of timber along the little Truckee river heretofore untouched, will be utilized to supply wood to the railroad. This will make an immense business and the county will prosper.
FELL ON A CIRCULAR SAW.—Wednesday morning Wm. Fellows sustained a severe injury at Shaffer's mill in the following manner: says the Truckee Republican: He was acting as tail Sawyer and while working behind the large saw, in some manner slipped and fell. His right arm struck against the saw and the flesh was torn into shreds from the elbow to the wrist. He was brought to town and was attended by Dr. Miller, who dressed the injured member. He expressed the opinion that amputation would have to be performed. Fellows is a young man about 23 years of age and his parents reside at Ogden. He only commenced to work in the mill Tuesday morning.
A BANK FOR PLACER COUNTY.—Articles of incorporation were filed in the office of the Secretary of State at Sacramento of the Bank of Placer County. Object to do a general banking business. Stockholders—N. D. Rideout, D. W. Luebeck, A. Huntly, J. H. Neff, F. D. Adams and A. Abbott. Principal place of business, Auburn. This will be the only bank in Placer county, and the institution will be ready for business in a few days.
THE FRANKEL CASE.—In the District Court of Storey county, in the Frankel insolvency matter, it being shown that H. S. Beck was entitled to a credit of fifty shares of Ophir, inadvertently overlooked by the experts, and Richard Bennett fifty shares of Best and Belcher, it was ordered they be allowed to come in and share pro rata in the assets of insolvents. The remittatur from the Supreme Court, upholding the decisions of the lower Court, was filed.

SALE OF THE BOCA MILL CO.—The Truckee Republican has the following particulars of the above sale:
Negotiations which have been going on between the stockholders of the Boca Mill & Ice Co. and a syndicate of San Francisco capitalists, looking to the transfer of the interests of the former, were consummated on the 1st of October. W. E. Terry and D. D. Whitbeck who owned most of the stock of the corporation transferred the same to Moses, Timothy and E. W. Hopkins, for a consideration which is strictly private. Mr. Whitbeck, however, retains a portion of his stock and will continue to act as manager of the company. This is the most important sale that has transpired here for many years, and the result arising from the change can at present only be conjectured. That the new Boca Mill Co. intend to build up immense interests at that place is certain. It is a point—perhaps the best on the Truckee river—adapted to the business of manufacturing lumber, the production of ice and the cutting of wood. Improvements are now being extensively made in the ice department. A large force of men is employed in the erection of a mammoth ice house, which, when completed, will be 700 feet long, 50 feet wide and capable of storing 16,000 tons of ice. Half of this structure will be completed this Fall. The dam across the Little Truckee river is being raised and when completed will form a pond of 180 acres in extent. This work will not be completed until next season. There is talk of building a railroad up the river to reach the timber and afford means of transporting the logs to the mill and large quantities of wood to market. The company at present employs 200 men, and bustle and activity prevail in every department. The mill is running steadily and is cutting over 1,000,000 feet of lumber a month, and even at this rate it is impossible to fill orders, so large is the demand.
Included in the property affected by the recent purchase is the Humboldt canal in Humboldt county, Nevada.
DEATH OF FRANK RABEL.—A dispatch received in Truckee last Monday announced the death of Frank Rabel at Alameda on that day. Mr. Rabel was, prior to 1881, a resident of that place and had been in business there for a long number of years and was well-known by every old resident. In 1880, Mr. Rabel suffered a stroke of paralysis and was confined to his bed for a long time, but recovered from the attack sufficiently to attend to business. A year or so ago, however, he suffered a second shock which confined him to his bed and resulted in his death.
BEATS THE LOUISIANA LOTTERY.—For the next sixty days all those who purchase one dollar's worth of groceries at Havenor's Cash Store will receive a ticket in a drawing for a fine gold watch. This is certainly a liberal proposition and all groceries sold at this establishment are fresh and of the best quality, and are disposed of at the lowest retail price. All goods are warranted and if not as represented the purchase price will be refunded. Go and take your chances in the watch.
An ore house has been erected at the Nevada Queen, and a Times-Review representative noticed a number of tons of exceedingly rich ore deposited therein, which came from a mine fifty feet below the 200 level. This indicates a prosperous run as soon as repairs are completed at the Grand Prize mill, which will be in a short time.
The first exhibition of the free-for-all ladies' tournament at the Carson Fair took place Wednesday, with Miss Nettie Winters, of Washoe; Miss Carrie McIntosh, of Reno, and Misses Ida Vansickle and Day, of Carson, competing. These equestriennes will give another exhibition on Saturday, when the awards will be made.
Both Avondale and Lige Clark beat Aletraz in the mile dash at the Carson races on Wednesday. The time was 1:51, which is said to have been good considering the heavy track, and the dash was won by Avondale. Aletraz was a great favorite in the pools, and considerable money was lost on him.
Quite a procession of Salvationists paraded the streets of Nevada City Sunday evening. They were followed by a howling, hooting mob of boys, who kept up a racket that drowned the singing and playing of the religionists. The scene was one of the most disgraceful ever witnessed in that city.
The Enterprise says: Judge Elias Owens, of Franktown, Washoe county, has sold his ranch and is about to remove to California. He will go at first to Santa Clara, and look around for a place upon which to settle down and grow old.
Truckee millmen complain that it is difficult to get cars to transport lumber, and orders are coming in faster than can be filled. There will be but very little lumber to be carried over this Fall, and no one will be surprised to see the price go up.
For cigars and tobaccos, both imported and domestic, there is no better place than E. Meyer's cigar stand, in Martin's store. There is no brand Meyer can not furnish. Give him a call, and try the latest.
The U. S. Grand Jury, in session at Carson yesterday, found four bills against parties for selling whiskey to Indians and ignored the charge against John Little for illegal voting.

A NOVEL RACE.—The Enterprise correspondent tells of a novel race that came off at the Carson track Wednesday, as follows:
Next came a race, free for all—saddle horses, double teams, one-horse rigs or anything else that could make a mile nearest to five minutes—no competitor to wear a watch under penalty of being bounced from the grounds. A \$15 purse was offered, and the track was soon alive with vehicles, animals and individuals of every description. Off they started in grand confusion. It was a sight to behold. Some of them went for all they were worth; others walked awhile and then struck a lively gait, while others kept up what they thought to be a steady five-mile gait. Sam Davis was of the latter class, and he gauged the time so accurately that he came under the wire in five minutes to a second, completely knocking out the whole army of competitors. The broad grin on the journalist's face caused the committee to suspect that he had a time-piece about him, but a thorough search of his person failed to reveal the same, and he was awarded the purse amid uproarious merriment among the spectators on the grand stand.
A CANINE PARALYZER.—Constable Upson killed twenty-two dogs last month and now cannot come within a mile of a canine. Every dog in town that is left from the heavy Summer crop knows him a mile off and leaves the city limits the minute the burly form of this enemy heaves in sight. There are several more that he is after, but it is now morally certain that they will keep out of his reach until notified that the ordinance against them is repealed or Upson stops his war.
Advice to mothers.
Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-aw 6-17
STARTLING NEWS FOR THE LADIES.—Mrs. Julia Prescott, so well and favorably known in our community and who has for years past been, and is now, the most stylish and fashionable milliner of Reno, and who only a couple of weeks ago opened out a most magnificent and complete stock in her line, now offers the same for sale at astonishingly low prices as the entire stock has to be sold inside of thirty days. Ladies may convince themselves of the truth of the above by calling. All are invited. National Bank building, up stairs, Room 1.
PORTRAITS, PORTRAITS.—The best opportunity ever offered the people of Reno to have a good picture made in any style. Studio over Sunderland's store, Virginia street. Call and see samples. Lessons given in crayon drawing and oil painting.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$100,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.
